FLOOR & WALL TILES

— COLLECTION —

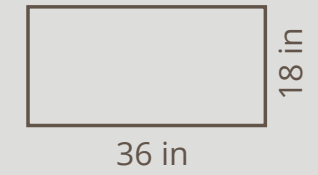

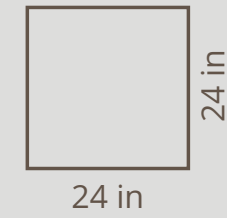

QUARTZITE

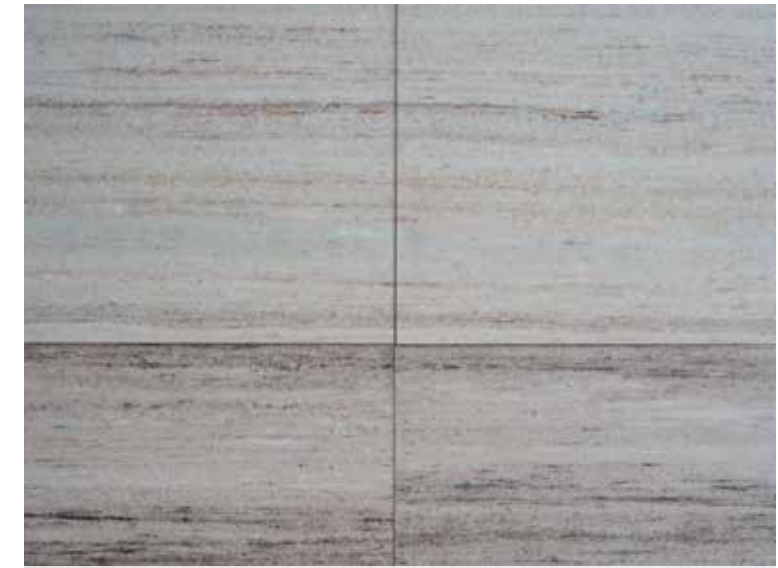

TILE DIMENSIONS

SEE SPECS BELOW

SNOWWHITE

MOON RIVER

ROYAL BLACK

GLITTER GREEN

Quartzite is a hard, non-foliated metamorphic rock which was originally pure quartz sandstone. Sandstone is converted into quartzite through heating and pressure usually related to tectonic compression within orogenic belts. Quartzite tiles are tough, durable and have visually appealing properties ranging from shimmer to mesmerizing natural patterns. Since quartzite tiles are extremely durable they can be used in a variety of ways including floors, walls, indoor and outdoor.

SPECS

COLOR	SNOWWHITE	MOON RIVER	ROYAL BLACK	GLITTER GREEN
SIZE (IN)	12 X 24, 24 X 24, 18 X 36	12 X 24	12 X 24	12 X 24
THICKNESS (IN)	1/2, 5/8, 5/8	1/2	1/2	1/2
FINISH	FLAMED	POLISHED	FLAMED	FLAMED

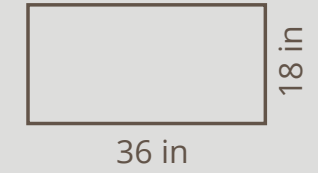

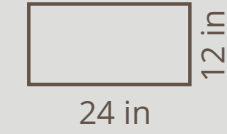

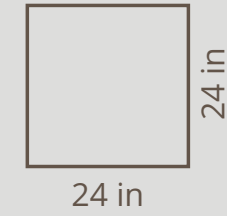

Natural stone varies in color, tones, markings and texture due to its geological composition, samples can only give a reflection or idea of the formation, veins and texture. Any variations must be accepted as inherent features of all natural stones.

MONSUM BLACK B

MONSUM BLACK S+B

SILVER GREY

CARBON GOLD

SHIMMER BLACK

SPECS

COLOR	SILVER GREY	CARBON GOLD	MONSOM BLACK B	MONSOM BLACK SB	SHIMMER BLACK
SIZE (IN)	18 X 36	18 X 36	18 X 36	12 X 24	18 X 36
THICKNESS (IN)	5/8	5/8	5/8	1/2	5/8
FINISH	BRUSHED	BRUSHED	BRUSHED	SANDBLASTED & BRUSHED	BRUSHED

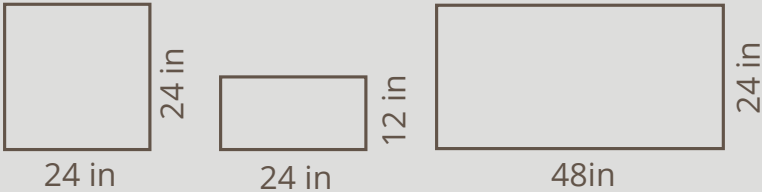

Natural stone varies in color, tones, markings and texture due to its geological composition, samples can only give a reflection or idea of the formation, veins and texture. Any variations must be accepted as inherent features of all natural stones.

BASALT

TILE DIMENSIONS

SEE SPECS BELOW

BASALT HONED

BASALT F+B

Basalt is a common extrusive igneous (volcanic) rock formed from the rapid cooling of basaltic lava exposed at or very near the surface. Sought after for its elegance and classic look, basalt tiles are used in a variety of ways including backsplashes floors, walls, indoor and outdoor due to its durability. It can be used for paving in driveways with different finishes, split face, flamed, tumbled, etc.

SPECS

COLOR	BASALT HONED	BASALT F+B
SIZE (IN)	24 X 24	12 X 24, 24 X 48
THICKNESS (IN)	5/8	5/8
FINISH	HONED	FLAMED & BRUSHED

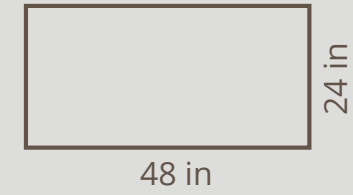

Natural stone varies in color, tones, markings and texture due to its geological composition, samples can only give a reflection or idea of the formation, veins and texture. Any variations must be accepted as inherent features of all natural stones.

MARBLE

TILE DIMENSIONS

SEE SPECS BELOW

WHITE WOOD VEIN

BLUE WOOD VEIN

Marble is a metamorphic rock composed of recrystallized carbonate minerals, most commonly calcite or dolomite. Marble may be foliated. Best used for its elegance and classic look in a variety of ways including backsplashes, floors, walls, indoor and outdoor. Marble is sensible to acids and to high traffic, depending on the finish. Is always recommended to use impregnators to avoid stains.

SPECS

COLOR	WHITE WOOD VEIN	BLUE WOOD VEIN
SIZE (IN)	24 X 48	24 X 48
THICKNESS (IN)	5/8 & 3/4	5/8 & 3/4
FINISH	POLISHED	POLISHED

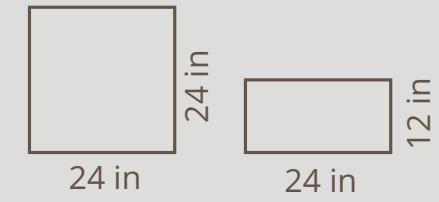

Natural stone varies in color, tones, markings and texture due to its geological composition, samples can only give a reflection or idea of the formation, veins and texture. Any variations must be accepted as inherent features of all natural stones.

SLATE

TILES DIMENSIONS

SEE SPECS BELOW

Slate is a fine-grained, foliated, homogeneous metamorphic rock derived from an original shale-type sedimentary rock composed of clay or volcanic ash through low-grade regional metamorphism. It is the finest grained foliated metamorphic rock. Foliation may not correspond to the original sedimentary layering, but instead is in planes perpendicular to the direction of metamorphic compression. Slate tiles are one of the sleekest and durable options for floors. It's ideal for high traffic areas, less slippery and will create a nice patina after time.

SPECS

COLOR	MONTAUK BLACK
SIZE (IN)	12 X 24, 24 X 24
THICKNESS (IN)	3/8
FINISH	NATURAL CLEFT

Natural stone varies in color, tones, markings and texture due to its geological composition, samples can only give a reflection or idea of the formation, veins and texture. Any variations must be accepted as inherent features of all natural stones.

GRANITE

PANEL DIMENSIONS

SEE SPECS BELOW

DARK GREY CHISELED

DARK GREY FLAMED & BRUSHED

Granite is an igneous rock with between 20% and 60% quartz by volume, and at least 35% of the total feldspar consisting of alkali feldspar, although commonly the term “granite” is used to refer to a wider range of coarse grained igneous rocks containing quartz and feldspar. Granite tiles are one of the most versatile options for flooring and extremely durable. Granite tiles can handle even the most foot traffic areas in any space. There are many colors to choose from and finishes like polished, flamed, sandblasted, chisel, split face, etc for each specific need.

SPECS

COLOR	DARK GREY	DARK GREY
SIZE (IN)	12 X 24	18 X 36
THICKNESS (IN)	5/8	5/8
FINISH	CHISELED	FLAMED & BRUSHED

Natural stone varies in color, tones, markings and texture due to its geological composition, samples can only give a reflection or idea of the formation, veins and texture. Any variations must be accepted as inherent features of all natural stones.
