WWW.STONETEK.US

ABOUT US

With more than 28 years of business founding, STONETEK is a well-established and dynamic natural stone boutique, that imports, exports, and distributes an extensive line of fine quality natural stones as; basalt, granite, slate, sandstone, limestone, and quartzite. Recently we have added new and innovative products like Cement tiles, Non-fired clay tiles Ecover and other materials.

As a result to this great venture set out by STONETEK founders, STONETEK has grasp the meaning of the beauty within a natural stone, and by doing so STONETEK has been able to share this great experience with Interior Designers, Architects, Project Managers, and Tile and Marble Showrooms in the Florida and anywhere in the USA. Our product selection is consistent and wide range. Many different designs and marvelous variations of colors and textures. STONETEK offers the best of natural stones, from the best quarries all over the world. We offer tiles in several sizes and finishes like natural, honed, brushed, flamed,

hand cut, or sawn edges. For 17 long years STONETEK has committed to the quality of product it extends to its customers and guarantees the value it adds to their projects. STONETEK has introduced only but the finest of the stones to their customers, and in return has managed to gain the loyalty and respect they merit.

At STONETEK we love Nature, and that is why most of our materials are made of natural stone, recyclable and natural materials.

Our mission is to find new alternatives around the world, learn about them and offer good and innovative products to help you to transform any space in the place of your dreams.

We stock large quantity of materials but also can customize special projects, other materials to facilitate the installation process and get the best alternative at a good budget.

NATURAL STONE WALL PANELS

UNITEK WALL PANELS

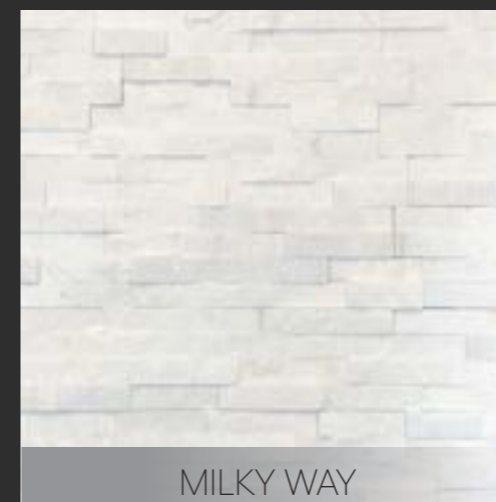

Made of uniform strips of natural stones like Marble, Quartzite, Slate, Limestone, Granite, Sandstone, and others, Unitek panels have a unified and linear appearance.

We have developed this collection to get the natural finish apparent in its robust surface with a light and slim characteristic only 3/8 " -1/2" thick to make the installation more effective, easier, and beautiful.

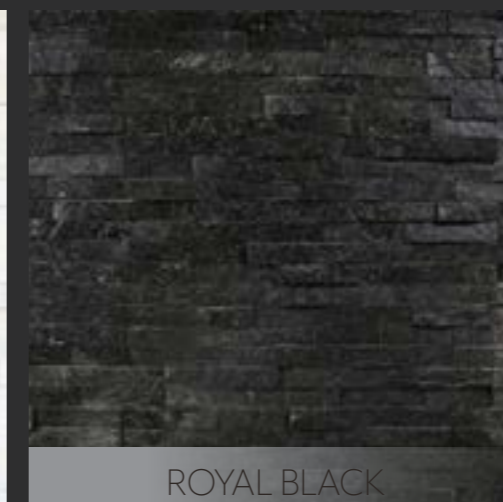

Due to its design, Unitek makes it a great choice for most applications, especially for tight areas where the thickness is a limitation. It can be installed on drywall and not grouting is necessary.

Unitek is suggested for outdoors or indoors, commercial or residential projects.

Other common names used in the industry for these products are Stacked Stone Ledger, Sidings, Stone Veneer, Thin Stone Veneer, Ledger Panels, Wall Panels, etc.

FORMAT WALL PANELS

Format panels are made of an array of natural stones. Marble, Quartzite, Slate, Limestone, Granite, Sandstone and others of different sizes, thickness and shapes. They have a clean, straight linear look but add texture due to the irregularity of the pieces. These panels are constructed in an interlocking-shaped form for a beautiful installation free of jarring seam lines and not grout is required.

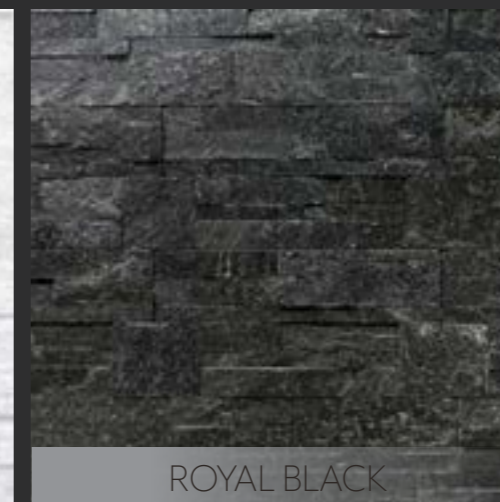

Format panels come in an inspirational array of looks and finishes refined rustic to contemporary chic, split-faced to 3D honed.

The suggested areas are facades, accent walls, pools, bathrooms, outdoor kitchens, fireplaces, backsplashes and more.

Other common names used in the industry for these products are Stacked Stone Ledger, Sidings, Stone Veneer, Ledger Panels, Wall Panel, etc.

2F + 3D WALL PANELS

2F+3D stands for two finishes and three dimensions. The two finishes are a mix of honed and sandblasted which render a uniquely textured surface. These panels also cast stimulating shadows when up light or track-light due to their varied shapes and thickness. They are constructed in an interlocking-shaped form for a beautiful installation free of jarring seam lines.

Other common names used in the industry for these products are Stacked Stone Ledger, Sidings, Stone Veneer, Ledger Panels, Wall Panel, etc.

MINISTRIP WALL PANELS

Made of strips of the best selection of natural stone, Marble, Quartzite, Slate, Limestone, Granite, Sandstone and others, Ministrip panels have a unique elegant style. With an angled cut profile, the thin pieces of stone combine seamlessly together into an exquisite textured surface. These panels are constructed in an interlocking-shaped form for a beautiful installation free of jarring seam lines, without grouting needed.

Ministrip is one of the best choices, it has an incredible texture, dimension, and a touch of unexpected elegance.

Used in any area, resembles the flowing of water, can be used also in waterfall walls, TV walls, lobbies, accent walls, facades, pools surroundings and more.

We offer Ministrip panels of 7x14in and Ministrip corners.

Other common names used in the industry for these products are Stacked Stone Ledger, Sidings, Stone Veneer, Ledger Panels, Wall Panel, etc

FENG SHUI WALL PANELS

Feng Shui wall panels are made of a beautiful Marble and Basalt selection. They are etched and grooved to display a rhythmically soothing pattern, blending in any style of space and guaranteeing the design of Naturally harmonious and peaceful places.

The large size (12 x 24") of these panels reduces the number of joints producing a continuous flow of the linear design.

Feng shui is often used in outdoor or indoors, commercial or residential projects: waterfalls, pool surroundings, backsplashes, bar walls, etc.

See panel colors:
